

Establish a Foundation with the Young Professionals Program

DESIGNED FOR THOSE JUST GETTING STARTED

Our Young Professionals Program is geared toward those of you who are avidly searching for answers to those questions and want to learn how to build a flourishing financial future. Whether you are a recent college grad who is just beginning their professional journey, a newly married couple starting a family, or any other young professional with questions, we are here to help.

There are so many resources and conflicting recommendations on what steps you should be taking to establish the foundation for your financial future that it can be overwhelming to know where to start. We help take the guess work out of determining what's the best path to take, providing you access to relevant resources, and work with you to establish goals and actionable objectives.

CONSULTATIONS INCLUDE FINANCIAL REVIEW, BEST PRACTICE GUIDANCE, ACTIONABLE RECOMMENDATIONS, AND MORE

During our Young Professional consultations, we'll review your current financial picture, tax-saving strategies, and actions you can take to be successful. After that, your Storen Financial advisor will follow up to check in on how your action items are progressing and answer any additional questions. Every consultation is different because every client has their own unique set of goals. Consultations include, but are not limited to:

- Identify and prioritize personal financial goals
- Understand your monthly cashflow and budget
- Discuss how different savings options work and related tax consequences
- Strategize debt management
- Discuss options for future changes or emergencies, including insurance, beneficiaries, POAs and more
- Review employer benefits packages
- Discuss additional tax-saving strategies
- Discuss recommendations on protecting your identity from financial scams

Once you've scheduled your consultation with one of our experienced Financial Advisors, follow the "Consultation Prep" instructions for preparing and submitting the necessary documents for your consultation.

1. Which of the statements below best describes your purpose for your investment account(s)?

- I want to minimize potential declines and significant fluctuations in the value of my account by investing in lower risk, more conservative investments 2
- I want a moderately high level of income (interest and dividends) from the account, with some modest growth opportunity over the long-term..... 4
- I prefer a balance of income (interest and dividends) with longer-term growth..... 6
- My primary goal is to maximize the value of my account as much as possible over a long-term time frame 8

2. If you received a large amount of money today, how would you invest it?

- I would invest it in something that offers moderate current income and is very conservative 3
- I would invest it in something that offers high current income with a moderate amount of risks 6
- I would invest it in something that offers high total returns (current income & capital appreciation) with moderately high risks 9
- I would invest in something that offers substantial capital appreciation even though it has high amounts of risk 12
